RICHMOND, Va. (WRIC) — Voter turnout across the state of Virginia was down this 2024 General Election, especially in localities considered to favor Democratic candidates.

While Vice President Kamala Harris (D) may have won Virginia's 13 electoral votes on Election Day by several percentage points, President-elect Donald Trump (R) is set to return to the White House in Jan. 2025, following a strong performance in many other states.

ELECTIONS, SIMPLY, WORK

- Nearly identical differences in margin of victory in both districts PWC Congressional Districts
